

Compliance aids step by step guides-Opticare Arthro®

Two 3D printed prosthetic grippers are shown side-by-side on a light-colored surface. The gripper on the left is yellow, and the one on the right is blue. Both have a similar design: a circular base with a central opening, a trigger mechanism, and two long, tapered fingers. The yellow gripper has some faint text on its side, including '0.1' and '1.0'.
